

UrBIOfuture

careers, education & research

ABOUT

UrBIOfuture main goal is to bring Europe to the forefront of the bio-based sector by boosting careers, new educational programmes and research activities.

First, a map of completed and ongoing programs addressing curricula that involve bio-based activities will be developed in a wide range of educational levels and covering a wide geographical scope in the EU, in a first stage, followed by the identification of current education and professional gaps and skills mismatch in the bio-based field. These results will ensure the cooperation and alignment among educational and research institutions and industry and will set the basis for new educational programmes.

OBJECTIVES

To map completed and ongoing programs addressing curricula that involve bio-based activities.

To foster the interaction and alignment among educational and research institutions and industry.

To identify current education and professional gaps and skills mismatch in the bio-based field.

To provide the bio-based industry and sector with a basis for promoting careers in the bio-based sector, the so-called “UrBIOfuture experience”.

To disseminate and exploit UrBIOfuture.
